Dr. Kanokwan Watkins was born in Songkhla, Thailand, on March 12, 1977. Educational Backgrounds are DIT, Murdoch University, WA, Australia, from 2009 to 2013, Master of Science in industrial education (Computer and Information Echnology), Bangkok, Thailand in 2003, Bachelor of Business Administration (Business Computer), Hatyai, Songkhla, Thailand in 1999.

Currently, she is the dean of Didyasarin International College, Hatyai University, Songkhla, Thailand, a lecturer in department of Digital Media Design, Didyasarin International College, also a postgraduate lecturer for Master and PhD students. She has been a Lecturer in the department of Business Computer, Hatyai University, Songhla, Thailand since 2003, a Computer Teacher, Mahaphap Krajadthong Uppatham school, Samutprakarn, Thailand and Siam computer and language institution, Bangkok, Thailand from 1999 to 2003. Her research interest is in the development and applications of Intelligent System and Data Mining.

Nutsana Na Phayap was born on May 10, 1983. Educational Backgrounds are Master of Information Technology, University Sain Malaysia in 2009 and Bachelor of Computer Science, Nakhon Si Thammarat, Thailand in 2007.

Currently, she is the Head of department of Digital Media Design in Didyasarin International college, Hatyai University, Songkhla, Thailand.

Assoc. Prof. Dr. Chun C. Fung was born in Hong Kong, China. Educational Backgrounds are a PhD. from The University of Western Australia, a Master of Engineering Degree in System Test Technology, and a Bachelor of Science Degree with First Class Honours in Maritime Studies from the University of Wales, Cardiff, United Kingdom.

He was the Postgraduate Research Director in the School of Engineering and Information Technology. I was trained as a Marine Radio and Electronic Officer at the Hong Kong Polytechnic and Brunel Technical College, Bristol UK. After graduation, he taught at the Department of Electronics and Communication Engineering, Singapore Polytechnic (1982-1988), and at the School of Electrical and Computer Engineering, Curtin University of Technology (1989-2003). After that, he worked at Murdoch University, he was an Associate Professor in the School and focused on nurturing postgraduate research students. His research interest is in the development and applications of Computational Intelligent techniques for practical problems.
